Consent to Initiate Care

At our office, we have one simple goal. We want to change your life by rendering the highest quality Chiropractic care. We do this by specific scientific chiropractic adjustments designed to remove vertebral subluxations affecting your nervous system and interfering with your God given innate ability to be healthy. To accomplish this goal, we must work together. We believe good Chiropractic care requires a partnership between you and us. Please read over our clinic's procedures to understand how our clinic functions, so that you can be an active participant in your care. If you have any questions please feel free to ask us.

To initiate care at our facility, there are **two required visits** you will be scheduled for, other than this visit, your Initial Examination visit. If you cannot attend either of these two subsequent visits, the negative impact on your care will be profound, and we cannot in good conscious initiate your care. These required visits are:

1. **Your Brief Report of Findings:** This visit is your first visit after your examination. This is where the doctor tells you if he feels chiropractic can help you and briefly explains your care. In most instances you will receive your fist adjustment on this visit, unless you would prefer to receive care at that time or to wait until after your X-ray Report.
2. **Your X-ray Report:** This will be your longest visit at our clinic and will consist of a detailed report of findings with recommendations for your care. Also included will be recommendations on what to do between visits and a detailed explanation of your care plan. Any x-rays taken will be reviewed at this time. We highly recommend that spouses and adult family members attend this visit with the patient. Young children should not attend this visit as the material may be too advanced, and children will find it difficult to stay attentive without becoming a distraction for that amount of time. Due to the time required, there are only certain times this visit is given. Check with our receptionist or the doctor for available times. Total visit time about 50 - 70 minutes.

I wish to initiate care in the form of examination procedures and if needed x-rays at Braile Chiropractic. I understand that I am under no obligation to either receive any further care unless I agree to such care at my report of findings.
